

WHAT ARE YOUR FAVORITE IPAD APPS AND USES?

The Headache: Personal productivity continues to grow in importance. Bankers have taken to the iPad, and may cotton to other tablet devices as time goes on.

Our Question: What iPad "apps" do you find particularly helpful? What tasks does the iPad make easier or more efficient for you? Has your bank adapted the iPad for any special purposes, such as board meetings?

Come see what other bankers think, and add your own views

When bankers adopt iPads, does it improve their worklife?

The iPad took personal technology by storm, and the way people lined up recently for the new iPad just boggled the mind.

You can't go to a banking conference now without seeing bankers all over the room using their tablets to check email, take notes, and more. We half suspect some executives we've been watching, who may not have found the speakers exciting enough, have been catching up on office work!

Have you got an iPad? Tell us what you are doing with it on the job, and what "apps" you really like.

Do you have a tablet besides the iPad? Go ahead and tell us about that. Apple doesn't rule the world, yet.
